## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 1 and 3-5 are generic to a plurality of disclosed patentably distinct species comprising Species (I) directs to the use of an actuator in the form of a solenoid which is controlled by wires and switch (see specification in pages 6-7 and shown in figures 2-3), and Species (II) directs to the use of an actuator in the form of a flexible diaphragm which is controlled by an air hose (see specification in page 7 and figures 4-6). Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Note: Claim 6 is readable for the species (I) and claims 7-8 are readable for the species (II). Claim 2 is not involved into the structure of the actuator thus this claim will be examined with the generic claims and the claim(s) of the elected species.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to David A. Lingbeck on 9/3/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2872

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thong Q Nguyen whose telephone number is (571) 272-2316. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew A Dunn can be reached on (571) 272-2312. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
